

## TK– 2 Enrichment Descriptions

Fun with Foy	We will learn about letters and numbers, calendar skills, music, art and developmental play time.
Fun with Manipulatives!	Making Math Meaningful and Fun with Manipulatives!
Legopalooza	Students will enjoy independent and partner challenges with Lego Bricks
Farm Buddies	Students will explore the Valley Oaks farm to learn about plants and animals.
Fun with Math	Get ready to learn and practice math by playing such games as “Fly Swatter Number Swat”, “M & M Math,” and “Number Bingo” just to name a few.!
Dental Health	Students will learn about dental health. We will discuss teeth, why we need them, and how we care for them. We will learn that there are different types of teeth, there are parts on the inside of our teeth that we can't see, and why taking care of them is very important. At the end of the session your child will get a surprise visit from the “Tooth Fairy” and receive a new toothbrush and tube of toothpaste.
Pound It Out	Students will explore the fusion of movement and music through exercise and interactive activities. They will pound Ripstix to the beat as they rock out to fun tracks
Music with Friends	Students will explore music through singing, movement and playing instruments. Come see how much fun music with friends can be!
Meet the Masters	Students will learn about famous artists and create works of art in the style of the Masters.
Move and Groove	Students will explore creative exercise and rhythm through activities designed to improve focus, coordination, physical fitness and teamwork skills.
To Infinity and Beyond	Learn about planets and stars as we travel around our solar system
Hands on Science	Students will participate in engaging scientific experiments and activities
Art with Mrs. Samms	Let's have fun making new art, enjoying story time, and trying new things together.
Fun on the Farm	Join Mrs. Williams and Mrs. Clough on Hokit Farm and spend time working in our garden and learning about the animals.
